Personal

Birth Date	May 13, 1987 – Bursa
Nationality	Republic of Turkey
Home Address	Ümraniye / İstanbul / Turkey
Education Level	Master's Degree

Educational Background

Master	Sakarya University, 2013 - 2015 Management Information Systems, http://www.sau.edu.tr CGPA: 3,80 / 4.0
University	Sakarya University, 2005 - 2009 Computer Engineer, http://www.sau.edu.tr CGPA: 2.97 / 4.0
High School	Küçükkuyu Yeşilyurt General Nihat Kocabaş High School , 2001 - 2004 CGPA: 4,87 / 5.0
Languages Spoken	Turkish – Mother Tongue English – Advanced (YDS : 72,5)(2016)

Summary

I have been working as database administrator since in May 2011 and working as team leader of Information Technology Unit since in Jun 2018 at TUBITAK BILGEM Kamu SM. I have about 7 years experience on database technologies. I have been managing Oracle, MsSQL, PostgreSQL and MySQL databases and depended reporting systems. I have been configuring and planning database system for availability, backup optimization, security, scalability and performance needs. We have about 60 databases that are various type technology of database like Oracle RAC, Oracle Data Guard, MsSQL AlwaysOn Availability Group, PostgreSQL Hot Standby, PostgreSQL Multi Master Structure and MySQL.

Work Experience

TÜBİTAK – KAMU SM (www.tubitak.gov.tr) I have been working as database administrator at Kamu SM / Tübitak since in May 2011. Also, I have been working at Kamu SM / Tübitak as IT Team Leader since in Jun 2018. I have been installing, controlling and managing data warehouse report systems and OLTP database systems. We have been using Oracle, MsSQL Server, PostgreSQL, MySQL as database system. Also, I worked on SAP systems (CRM, ERP, PI, BW, BO, EP, SOLMAN) installing, designing, configuring operations as SAP Basis Administrator from in May 2013 to Jan 2015.

FORD OTOSAN (www.ford.com.tr) I had internship at this company on the summer of 2008. I worked on Oracle database technologies. I obtained information about Oracle RAC System, Linux Operating System and Oracle database.

ELKOTEK A.Ş. (www.elkote.com.tr) I had an internship at this company on the summer of 2007. I worked on ASP language, PHP language, MySQL database and Access database.

Test Scores

1Z0-051 Oracle Database 11g: SQL Fundamentals I

Score: %98 Oracle University in May 2013.

1Z0-052 Oracle Database 11g: Administration I

Score: %96 Oracle University in Oct 2013.

1Z0-053 Oracle Database 11g: Administration II

Score: %73 Oracle University in Apr 2017.

Certificates

Oracle 11g Certified Associate (OCA)

Oracle License : OC1215569

Oracle University in Oct 2013.

Oracle 11g Certified Professional (OCP)

Oracle License : OC1215569

Oracle University in Apr 2017.

Skills and Knowledge

Oracle Database

Oracle database installation, administration, backup and recovery, security, availability, scalability and performance operations. Oracle RAC (Real Application Cluster) and Data Guard installation and administration operations. ASM configuration and managing.

MsSQL Server Database

MsSQL Server database installation, administration, backup and recovery, security, availability, scalability and performance operations. SQL Server AlwaysOn Availability Groups installation and administration operations.

PostgreSQL Database

PostgreSQL database installation, administration, backup and recovery, security, availability, scalability and performance operations. PostgreSQL streaming replication and multi master structure installation and administration operations.

MySQL Database

MySQL database installation and administration, backup and restore operations.

SAP Basis

SAP Systems that are CRM, ERP, PI, BW, BO, EP, SOLMAN installation, backup and restore, configuration and maintenance operations.

Microsoft Dynamics CRM

Microsoft Dynamics CRM 2011 installation and administration. CRM interface customization and organization migrate. E-Mail Router configuration.

Cognos Reporting Tool

Cognos installation and configuration. Project creation and configuration. Dashboard and list report creation.

MicroStrategy Reporting Tool

MicroStrategy installation and configuration. Project creation and configuration. Dashboard and list report creation.

LogiReport Reporting Tool

LogiReport installation and configuration. Project creation and configuration. Dashboard and list report creation.

Windows Server

Windows Server installation, administration and preconfiguration operations for database installation.

Linux Server

RHEL, Centos and OEL installation, administration, and preconfiguration for database installation.

Projects

Database Installation and Configuration Grid Database for Time Stamp

I installed and configured PostgreSQL 9 database as grid structure for time stamp application in Sep 2016.

Technologies

- Centos 7
- PostgreSQL 9 Database
- Host Standby Structure
- Cascade Hot Standby Structure

Database Installation and Configuration for Turkish Identity Card Certification

We installed and configured PostgreSQL database for Turkish Identity Card Certification in Aug 2016. We configured PostgreSQL database for multi master and host standby structure for high availability.

Technologies

- Centos 7
- PostgreSQL 9 Database
- Multi Master Structure
- Hot Standby Structure
- Cascade Hot Standby Structure

Database Installation and Configuration for Application Products

I installed and configured Oracle 12c database for center of various application in July 2016.

Technologies

- Oracle Linux 7
- Oracle 12c Database
- Multitenant Structure

Database Installation and Configuration for eBA BPM

I installed and configured MsSQL Server 2012 database for eBA BPM in Feb 2016.

Technologies

- Windows Server 2012
- MsSQL Server 2012 Database
- MsSQL Server AlwaysOn Availability Group Structure Standby Database Technology

Database Installation and Configuration for Karmasis Security Logging System

I installed and configured MsSQL Server 2012 database for Karmasis Security Logging System in March 2014. I configured backups for time stamp operation.

Technologies

- Window Server 2008 R2 Enterprise
- MsSQL Server 2008 Database

Database Installation and Conf. for enVision Doc. Management System

I installed and configured MsSQL Server 2012 database for Document Management System (enVision) project of Kamu SM in February 2014. I installed three database for development, test and production environment.

Technologies

- Window Server 2012
- MsSQL Server 2012 Database

Database Installation and Configuration of Internet Branch for Kamu SM

I installed and configured MsSQL Server 2012 database for Internet Branch project of Kamu SM in February 2014. I installed three database for development, test and production environment.

Technologies

- Window Server 2012
- MsSQL Server 2012 Database

SAP Systems Installation

We installed SAP Systems that are ERP, CRM, BW, BO, PI, EP, SOLMAN Systems for production with outsource consultants. I managed this project as SAP Basis Administrator in March 2014.

Technologies

- Window Server 2008 R2
- Windows Failover Cluster
- Oracle 11G R2 Database and Oracle 11G R2 Fail Safe Structure
- SAP NW 7.4

Oracle DWH Database Migration

I installed Oracle 11g R2 database on Oracle Linux 6.4 operating system. After installation and configuration had completed, I migrated Oracle DWH database from Oracle 11g R1 on windows operating system to new installed database. Finally, I configurated dblink, materialized view refresh, backup and users in April 2013.

Technologies

- Window Server 2008 R2
- Oracle Linux 6.3
- Oracle 11G R1 Database
- Oracle 11G R2 Database

Oracle 11g Data Guard Installation

We installed and configured single instance Oracle 11g Data Guard as real time apply for main database system in Jan 2013. Primary side was Oracle 11g RAC database.

Technologies

- Oracle Linux 6
- Oracle 11G R2 RAC Database
- Oracle 11G R2 Data Guard (Real Time Apply)

Oracle Database Version Upgrade

We upgraded main database system from Oracle RAC 10g R2 to Oracle RAC 11g R2 version in 2012. We changed Operating system version from Windows Server 2003 to Oracle Linux 6.3.

Technologies

- Windows Server 2003
- Oracle Linux 6
- Oracle 10G R2 RAC Database
- Oracle 11G R2 RAC Database

MsSQL Server 2008 Failover Cluster Database Installation For Web Page

I installed MsSQL Server 2008 Failover Cluster Database with two nodes for new internet branch web page of Kamu SM in June 2012.

Technologies

- Windows Server 2008 R2
- Windows Failover Cluster
- MsSQL Server 2008 Failover Cluster Database

Microsoft Dynamics CRM Integration

My corporation wanted to change old workflow mentality and customer relationship structure. However, we decided to use Microsoft Dynamics CRM application. My main task that other third-party applications would combine with CRM application in December 2011.

Technologies

- Windows Server 2008 R2 Enterprise
- MsSQL Server 2008 R2 Database
- Microsoft CRM 2011

Series Packing System

My firm established series packing system to speed packing in August 2011. I configured database synchronization for this machine.

Technologies

- Oracle 11g R2 Database

Dashboard With LogiReport

I prepared a dashboard to follow status of production with using LogiReport and Oracle database in July 2011.

Technologies

- Oracle 11g R2 Database
- Logireport

Apartment Automation Software

This project has been done in 2009. It is still being used. I used PHP, MySQL, Javascript, Ajax in this project. Target of this project, apartment house owners can follow all account information and remainder status via web.

Technologies

- MySQL Database
- PHP Language
- Javascript

Oracle 10g R2 RAC

This project was my graduation project in June 2009. I used Oracle 10g Database, Vmware, Redhat Linux. Rac System had two clusters, one database and one client machine. The aim was nonstop access to database with two clusters.

Technologies

- VMware
- Redhat Linux 5
- Oracle 10G R2 RAC Database

Business World Foundation

I made web site for Business World Foundation in December 2008. This web site was full content management system. I used PHP, MySQL, Javascript, Ajax, Aboobe Flash. Web Address was <http://www.isdunyasivakfi.org.tr>

Technologies

- MySQL Database
- PHP Language
- Javascript

City Guide

This project was my first project. I made city guide website for Sinop where is city of Turkey in November 2007. Target of this project, all companies and people met a common point. This website had dynamic pages, company list, add and remove, advertise list, membership control system and more. I used PHP, MySQL, Javascript languages.

Technologies

- MySQL Database
- PHP Language
- Javascript

Received Training

Oracle 11g R2 : Introduction to SQL	Bilginç IT Academy in June 2011.
Oracle 11g R2 : DBA I	Bilginç IT Academy in August 2011.
Oracle 11g R2 : DBA II	Bilginç IT Academy in June 2011.
Oracle 11g R2 : RAC and Grid Infr. Admin.	Bilginç IT Academy in June 2012.
Oracle 11g R2 : Backup and Recovery	Bilginç IT Academy in August 2012.
PostgreSQL : Administration	Tübitak in June 2011.
Microsoft Dynamics CRM 2011 : Admin.	crmAkademi in Jan 2012.
Configure IIS on Windows 2008 Server	Bilge Adam in Sep 2012.
ITIL V3 Foundation Course	Bilge Adam in Sep 2012.
VMware Administration	Bilge Adam in Oct 2012.
Micro Strategy Reporting Tool	Obase in Jan 2013.
PMI Project Management	Bilge Adam March 2013.
Microsoft Project Server 2010	Bilge Adam in March 2013.
Microsoft Project Server 2013 Ins. & Conf.	Bilge Adam in May 2013.
Microsoft SQL Server 2012 Administering	Bilge Adam in Sept 2013.
Advanced Level Web Penetration Testing	Bilgi Güvenliği Akademisi in Jan 2014.
Effective Communication Skills	Platform Akademi in Nov 2015.
Microsoft Dynamics CRM 2015 App&Adm.	Platform Akademi in Jan 2015.
System Engineering Fundamentals	PSConsultech in Jan 2016.
Cognos Reporting Tool Administration	DataMind in August 2017.
Oracle 12c : New Features For Admin.	Bilginç IT Academy in Sept 2017.
Oracle Linux 7 Advanced Administration	Bilginç IT Academy in Oct 2017.

Attended Seminars and Activities

Oracle Day 2011	Swiss Otel in November 2011.
ITIL Awareness Seminar	Bilginç IT Academy in December 2011.
SQL Server 2012 Lansman	Swiss Otel in May 2012.
Oracle SQL Tuning	Bilginç IT Academy in May 2012.
SAP Forum İstanbul	Istanbul Congress Center in Oct 2012.
Oracle Day 2012	Istanbul Congress Center in Nov 2012.
Oracle Cloud Day 2015	Istanbul Swiss Otel in Nov 2015.
Oracle Digital Day 2016	Istanbul Swiss Otel in Nov 2016.
Oracle Database Administration SIG 2017	Bilginç IT Academy in Feb 2017.
Oracle Digital Day 2017	Istanbul Swiss Otel in Nov 2017.

Given Seminars and Activities

Database Systems Training as Trainer	Tubitak Kamu SM in Mar 2017.
Experienced Graduates Summit as Speaker	Sakarya University in Oct 2017.
